

Guidelines for Customers: 2020 Montgomery County Farmers' Market

- 1) Parking can be accessed from Maysville Street or from Locust Street behind the Extension Office.
- 2) Visit the market manager table in order to use your SNAP benefits and also to take advantage of the Double Dollars program (for SNAP, Senior Coupons, and WIC Coupons).
- 3) Masks are encouraged by customers (and required by vendors).
- 4) Hand Sanitizers will be found throughout the pavilion for you to use as needed. There is also a hand washing station on the Maysville Street side of the Pavilion if you need it.
- 5) We are not allowed to use reusable bags at this time due to cross contamination. You will be given a new plastic bag for each purpose.
- 6) Shop with your eyes and not your hands as much as possible.
- 7) There will be no restrooms for public use
- 8) Sampling and cooking demonstrations are not allowed as of right now because the KY Dept of Agriculture has said that there can be no eating at the market. Hopefully we can change this soon.
- 9) Please bring small bills so that you can have correct change. We have been encouraged to limit the amount of money changing hands between the customer and vendor as much as possible.
- 10) Because of social distancing guidelines, we have to limit hanging around a vendor booth to socialize. We have missed you all and this will be hard for us to do as well. However, we have to make sure we keep the traffic moving as much as possible.
- 11) No smoking inside the pavilion
- 12) Only service dogs are allowed inside the pavilion at this time (per the Health Dept)
